Forever 7s Review

Red Tiger is known for experimenting a lot with the Classic style concept, and Forever 7s is a perfect example in that regard. The simple 3-reeler is pimped up with a lucrative black and gold color scheme, foreshadowing the Mystery Symbols feature that comes with similar colored mystery 7s. These turn into symbols of random values up to x500 each, and all 3 values are added together.

The base game

alternates between 6 different color schemes, and you will only land the corresponding 7 symbols per color mode. These come with values up to x500 also, so it's definitely possible to win 1,500x in all stages of the game. While some might find this low/mid-range installment a bit tedious, others will probably enjoy its simplistic charm and dynamic vitality.

Forever 7s Slot - Reels Screen

Forever 7s Features

As you

understand from the above, you will land nothing but 7 symbols in this game, but these come with different colors and multiplier values attached. There are six lucky number 7 symbols (or 7, if you count the black mystery 7s (more about that below)), and these are worth the following:

Dark Blue 7s pays 3x your stake for 3 on the single payline.

pays your stake for 3 on the single payline. Purple 7s pays 15x your stake for

3 on the single payline.

pays your stake for 3 on the single payline. Green 7s pays 30x your stake for 3 on the single payline.

Red 7s pays 75x your stake for 3 on the single payline.

single payline. Light Blue 7s pays 150x your stake for 3 on the single payline.

pays

your stake for 3 on the single payline. Golden 7s pays 1,500x your stake for 3 on the single payline.

The Changing Colours feature triggers at random times, and you'll then see the background color change as the reels are filled with nothing but randomly chosen matching 7 symbols of the same color. The same color 7s will keep landing for a while, until the color changes yet again, and this way you cycle through random symbol types as you play.

You can also switch into Mystery Symbols mode, and this feature

comes with black/golden 7 symbols. Land 3 of these on the single payline, and each 7 will display a random win multiplier between x1 and x500. The 3 multipliers are then added together as the mystery win is summed up.

The 200 Spins Forever 7s Experience

The

3:42 minute highlights video starts out with a purple 7s win, and around 1:40 into the video you get to see the mystery 7s in action. This awarded such a big payout that it took more than 1 and a half minutes to sum up(!), and you can see it all for yourself by hitting the play button below.

Review Summary

Red Tiger has a knack for doing

interesting stuff with the classic slot concept, and Forever 7s is a clever little thing in many ways. Landing only 7 symbols is certainly fun if that's your lucky number, and perhaps it will be after a few hundred spins on this thing. You'll probably count 7s as you close your eyes to sleep that night, but all is forgiven if you crack the 1,500x potential.

That might not sound too impressive, but keep in mind that this

is a casual low to medium variance release. Alternating between colors/symbols creates a bit of desperately needed variety in a very monotonous base game, but if all else fails, the Mystery 7s feature will definitely wake you up from the "reel blind" slumber when it hits.

Pros Land only 7s with values up to x1,500 for 3

Dominating symbol

alternates randomly

Mystery 7s for up to 1,500x payouts Cons Low/med volatility caters

Beware of adjustable RTP ranges

If you appreciate Forever 7s

you should also try:

777 Strike - is a 5-reel fruit slot inspired release from Red

Tiger, and it comes with 10 paylines. You can land payouts up to 777x from a single spin, and the 3-tier bonus round comes with extra wilds, guaranteed wins and sticky wilds for overall payouts up to 2,830x your stake.

HarleCoin - is a more volatile

classic slot from Red Tiger, and it also comes with 3 reels and a single payline.

Harlecoin icons overlay regular symbols, and this boosts the symbol values when you

win. Harlecoins overlay every symbol in the bonus round, where you can win up to 1,076x

your stake.

Golden Horns - is a classic 3-reeler with 1 payline, and Betsoft has packed a solid 25,344x your stake punch into this asian-themed release. Ox wilds come with random multipliers up to x88, and 3 ox wilds guarantees a minimum win of 576x your stake.
