Serie B betting experts will be able to confirm that when we talk about sports betting we are always going to be mentioning the importance of the odds available. A fundamental element of betting, odds are numerical values that give you a direct indication of the probability that an event will or will not occur. Whatever sport or competition you decide to bet on, remember that odds are an integral part of online betting: in fact, online betting is essentially based on them. Used in particular to find out the potential winnings of a bet on the second tier of Italian football, this will help you decide which bets to place.

How to calculate Serie B odds?

The

most important thing to know about Serie B odds is that they are calculated by sports betting sites based on several factors. Besides statistical elements such as the latest results of the teams in the league, the top scorers, or the history of the confrontations between the different Serie B clubs, the bookmakers will also take into account less mathematical factors. The way a team plays, for example, or comments made by a manager before a match: these are also factors that can influence the value of an odds.

Secondly, it is good to know that the value of an odds will obviously be related to the probability of an event occurring during a Serie B football match. So when a scenario is more likely to occur, the odds offered for that scenario will inevitably be rather low. To explain what we have said, let's take the example of the match between Pescara and Ascoli, in which the Abruzzo are clear favourites to win.

In this

particular case, the Serie B odds offered for the "Pescara wins" market will not be very high (e.g. 1.95), while those offered for Ascoli will obviously be higher (e.g. 4.85). This is why we insist on the undeniable relationship between Serie B odds and the probability of certain events happening: this reasoning is valid for any match you

7 want to bet on. On the other hand, it will be logical that in a match between two teams of 7 the same level, bookmakers will offer odds of similar value. In the match between Parma and Brescia, for example, the 7 visitors' success is offered at 3.00, the draw at 3.10 and the home side's success at 2.45. The difference is 7 small because it is difficult to clearly establish which of the three scenarios (1X2) is most likely to happen.

Finally, to 7 conclude our reasoning, we would like to remind you that the odds can vary during the match itself: a very 7 important information to keep in mind, especially if you like live betting on Serie B. Logically, events that happen during 7 the match (goals, red cards, injuries, minutes of play passing...) will affect the odds of the different scenarios and will 7 be responsible for the change of the odds offered compared to the beginning of the match. If Pescara scores at 7 the beginning of the match, for example, the odds for Pescara's victory, which were offered at 1.95 at the beginning 7 of the match, will quickly drop to around 1.20. So keep this in mind before placing your Serie B bets.

What 7 is the point of Serie B odds?

An important aspect of

Serie B odds, also for the same type of bet, 7 is that they can vary depending on the betting site you visit. For example, a Benevento win over Cittadella might 7 be offered at 2.05 at one sportsbook, and you might find it at 1.95 at another. This is why the 7 main interest of the odds is obviously to compare the odds themselves on the different sports betting operators, since by 7 multiplying them by the stake, the odds will indicate the winnings you will get in case of success (odds x 7 stake = potential winnings). The higher the stake, the bigger the winnings can be. So that's the secret of why 7 comparing Serie B betting odds is crucial to aiming for the best possible winnings.

The second major interest of the odds 7 will be tactical: it is about gauging your opinion before a match. Let's take the example of Pescara-Ascoli, where you 7 want to bet on the Abruzzo winning. If you notice before the match that the betting sites offer odds of 7 1.90 for Pescara to win, no problem, you follow the same logic as the market. If, on the other hand, 7 you realise that the betting sites are offering Pescara a win at higher odds than expected (at 2.80 at Unibet 7 for example), then it will be important to check why. In the first case, you realise that you have forgotten 7 to take into account certain elements, such as injured or suspended players. In the second case, you realize that the 7 betting sites are definitely underestimating Pescara for this match and are offering very attractive odds. So you have to play 7 on the odds offered by the bookmakers!

Bet on the long term

In addition to

all the Serie B 7 matches you can bet on, you should know that there are also Serie B odds offered on the long term. 7 For example, sports betting sites offer odds for the club that will win Serie B, for those that will get 7 promoted to Serie A, for relegation, etc. These are always odds for the club that will win Serie B. These 7 are always fairly high odds that are worth exploiting, especially as they will bring a breath of fresh air to 7 Serie B betting!

To conclude on this page

dedicated to Serie B odds, we recommend that you sign up 7 to all betting sites in the market. It's all about logic. Before betting on your favourite Serie B matches, you 7 should take advantage of our Serie B odds comparator to find the best odds. However, why compare them if you 7 are not registered with most betting sites? Let's take a final example on a hypothetical match between Cittadella and Venezia.

After 7 comparing the odds, you notice that bet365 and Betfair offer Cittadella winning at 1.90, while Bwin offer the same result 7 at odds of 1.80. The problem is that you only have a Bwin account and therefore you can only play 7 on the 1.80 odds. On the other hand, if you open accounts with bet365 and Betfair, you will be able 7 to play at the better odds and get bigger winnings. Logic dictates that to maximise your winnings, you simply need 7 to open an account on as many sports betting sites as possible: it is your winnings that will benefit in 7 the long run.
