Cornelius Slot Review

By pressing play, you agree that you are above legal age in your jurisdiction and that your jurisdiction allows online gambling.

Cornelius Slot

Overview

Cornelius is a new casino slot from NetEnt where we meet the cat with greedy guts, Cornelius. He is truly a treat freak and unlike Garfield who loved lasagna, this cat's favorite is instead big biscuits. His red bowl stands next to the reels, where he eagerly waits for it to be filled with food, which at the same time creates winnings that can reach 1051X the bet. At first glance, this might be considered a very low potential maximum win when compared to their Silverback Gold, for example. It can be justified by the fact that a low volatility has been applied along with a higher RTP, which ensures that there will be consistently smaller payouts instead of a rare high paying one. Let's visit this kitchen where Cornelius is waiting.

Cornelius is a video

slot from NetEnt that features 5 reels, 4 rows and 1024 ways to win. You can choose between making a Min.bet of 0.20 and a Max.bet of 400. The game has been created with an RTP by default which is around the average, where we have an RTP of 96.04%, but the game has also been created with a lower RTP of 92.10%. Cornelius has a low volatility, where you can win up to 1051X the bet, where this average occurs at 1 in 50 million spins.

Within this gastronomic gaming adventure among the hungry cat Cornelius, we have a couple of festive features to help us in our quest for the bigger wins. The features are Cash Drop, Free Spins and Bonus Buy.

Cornelius Slot Information

The design of the

game is a cat theme, where we meet the food loving cat Cornelius. In the background of the reels, we can see the kitchen that the slot is set within, where Cornelius is on the left along with his red food bowl. You can play this slot on the device's notepads, desktops and mobiles. You create a winning combination by landing 3 or more of the same symbol type on adjacent reels starting at the far left.

Base game

The lower paying

symbols are 10, J, Q, K and A. The higher paying symbols are a fish-shaped chew plushy, a tin of food, a bottle of milk and a photo of Cornelius. The scatter symbols consist of biscuits in a glass jar and during the spins you can also land cash drop scatter symbols that show biscuits on a plate. Within the free spins feature you will be introduced to the symbols Up, Golden Up, Multiplier and Adder. Let's find out what the features do.

Cornelius Slot Features

What is the max win in the slot Cornelius?

You can

win up to 1051X the bet.

What features are available in the slot Cornelius?

The

features are Cash Drop, Free Spins and Bonus Buy.

Free Spins

Cash Drop

If you land 3 or

more cash drop scatter symbols, the cash drop feature is activated. Within the base game they can have values between 0.25X to 3X the bet, while they have values between 0.1X to 0.5X within the free spins. You will then receive 3 respins and the cash drop symbols that you had at activation will remain in their position. The cash drop symbols will move down one step at each spin made, where they are added to Cornelius' red food bowl. Each time you land one or more cash drop symbols, the respins will reset to 3 again.

Cash Drop

Free Spins

If you land 3 or more scatter symbols, the free spins

feature is activated. The scatter symbols that you had at activation will turn into cash drop symbols and then you will start with 3 respins. Within this bonus game, each position on the reels will spin individually and each time you land a symbol, the respins will reset to 3 again. You can land the following symbols within this bonus game:

Cash Symbols = 0.1X to 0.5X the bet.

Up Symbols = This will move the multiplier

and cash drop symbols 1 row up, resulting in them staying longer on the reels.

Golden

Up Symbols = This will move all multiplier and cash drop symbols to the highest unoccupied position in the rows.

Multiplier Symbols = This will multiply all values of the adder and cash drop symbols by 2X.

Adder Symbols = This will add 0.1X to 0.3X to

the value of all cash drop symbols on the reels. This adder symbol remains on the reels during the whole bonus game, where cash drop symbols will jump over it when they are moved down or up the reels.

Big win screen

Bonus Buy

If you want to take advantage of

the free spins feature right away, you can use the bonus buy feature. You pay 100X the bet and then the bonus game is activated.

Cornelius Slot Conclusion

Within this slot

you will meet the charismatic and joyful cat Cornelius, who has a bigger appetite for food than Garfield himself. It's a place where it constantly rains tasty treats, and

this cat is truly in a heavenly place. The game has been created with joyful and vibrant colors, much like what we saw recently within their slot Bee Hive Bonanza. This easy-going theme that has been chosen coalesces well the various features that have been applied, where there is a softer approach in the game play.

The game has an

entertaining base game, where you can manage to scoop up some great wins with the help of the symbols showing cat food and toys, and Cornelius himself. However, it is within the Cash Drop and Free Spins feature that the real winning treats start to show up, where respins features await. The cash drop can from time to time generate greater wins, but it's within the free spins feature that the odds of winning big increase dramatically. Here you are introduced to extra special symbols that significantly can increase the value of the cash drop symbols.

The fact that the symbols move down during

the spins and gradually fill up the red food bowl is certainly an entertaining moment, which pleases us as much as Cornelius. The lower volatility that has been applied suits this theme very well and the balance does not shift as much as in high volatility slots. It's a slot that has received a lower potential maximum win, but which coincides well with the lower volatility. There is also a wide variety of bet sizes to choose from, which can reach a staggering €400, resulting in chances of creating phenomenal wins. In a trend where the volatility seems to increase every day, it's refreshing to see a slot like this where they choose a lower one instead. It doesn't matter when you check in on this slot, as it's always feeding time for Cornelius. His cheerful presence creates an incredibly calming moment in front of the screen and when the crispy treats start falling down on the reels, you know that a good time awaits with tasty prizes.

Cornelius is a new slot where we get to meet the hungry and food fanatic cat Cornelius who invites us to a place where a great game time awaits.
