What is a 3-bet in Poker?

A 3-bet is a play in which a player makes a re-raise after an initial raise, during a betting round,
increasing the stakes by another round of betting. This move aims to gain valuable information
about the strength of players' hand and their betting patterns.

For example, suppose you're playing a game of No Limit Hold'em. The first player to act raises to
R\$5, the next player 3-bets to R\$15, and you have the choice to call, 4-bet, or fold.

In this scenario, the player on the button decides to 3-bet presuming they have a strong hand by
the fact the first actor didn't make preflop raise.

Why Use a 3-bet in Poker?
