Omaha

hold 'em (also known as Omaha holdem or simply Omaha) is a community card poker game similar to Texas hold 'em, where each player is dealt four cards and must make their best hand using exactly two of them, plus exactly three of the five community cards.

The exact origin of the game is unknown, but casino executive Robert Turner first brought Omaha into a casino setting when he introduced the game to Bill Boyd, who offered it as a game at the Las Vegas Golden Nugget Casino (calling it "Nugget Hold'em").[1][2] Omaha uses a 52-card French deck. Omaha hold 'em 8-or-better is the "O" game featured in H.O.R.S.E.

History [ edit ]

Omaha hold 'em derives its name from two types of games.

"Hold'em" refers to a game using community cards that are shared by all players. This is opposed to draw games, where each player's hand is composed only of concealed cards, and stud games, where each player's unique hand contains a mix of cards visible to the other players and concealed hole cards.

In the original Omaha

poker game, players were only dealt two hole cards and had to use both to make a hand combined with community cards.[3] This version of Omaha is defined in the glossary of Super/System (under Omaha) as being interchangeable with "Tight hold 'em". Across all the variations of the game, the requirement of using exactly two hole cards is the only

consistent rule. The "Omaha" part of the name represents this aspect of the game.

Explanation [ edit ]

In North American casinos, the term "Omaha" can refer to several poker games. The original game is also commonly known as "Omaha high". A high-low split version called "Omaha Hi-Lo", or sometimes "Omaha eight-or-better" or "Omaha/8", is also played. In Europe, "Omaha" still typically refers to the high version of the game, usually played pot-limit. Pot-limit Omaha is often abbreviated as "PLO." Pot-limit and no-limit Omaha eight-or-better can be found in some casinos and online, though no-limit is rarer.[4][failed verification]

It is often said that Omaha

is a game of "the nuts", i.e. the best possible high or low hand, because it frequently takes "the nuts" to win a showdown. It is also a game where between the cards in their hand and the community cards a player may have drawing possibilities to multiple different types of holdings. For example, a player may have both a draw to a flush and a full house using different combinations of cards. At times, even seasoned players may need additional time to figure what draws are possible for their hand.

The basic

differences between Omaha and Texas hold 'em are these: first, each player is dealt four hole cards instead of two. The betting rounds and layout of community cards are identical. At showdown, each player's hand is the best five-card hand made from exactly three of the five cards on the board, plus exactly two of the player's own cards.

Unlike Texas hold 'em, a player cannot play four or five of the cards on the board with fewer than two of their own (nor can a player play three or four of his or her hole cards).

A maximum of eleven players can be dealt a hand in Omaha, regardless of whether or not burn cards are used, however Omaha is most commonly played six handed or nine handed.

Some specific things to notice about Omaha hands are:

As in Texas hold 'em,

three or more suited cards on the board makes a flush possible, but unlike that game, a player always needs two of that suit in hand to play a flush. For example, with a board of K 9 Q Q 5 , a player with A 2 4 5 cannot play a flush using the ace as would be possible in Texas hold 'em; the player must play two cards from in-hand and only three from the board (so instead, this player's best hand is two pair: Q Q 5 5 A ). A player with 2 3 K J can play the spade flush.

, a player with

play a flush using the ace as would be possible in Texas hold 'em; the player must play two cards from in-hand and only three from the board (so instead, this player's best hand is two pair: ). A player with play the spade flush. The same concept applies to straights. In Omaha, a player cannot use only one hole card and four cards on the board to play a straight. For example, with a board of 5 6 7 8 A , a player with J

J 4 9 or J J 9 9 cannot play a straight. But a player with J J 4

3 can play a straight from 3 to 7;

, a player with or play a straight. But a player

with play a straight from 3 to 7; Two pair on the board does not make a full house for anyone with a single matching card as it does in Texas hold 'em. For example, with a board of J J 9 5 9 , a player with a hand of A 2 J K cannot play a full house; the player can only use the A-J to play J J J A 9 , since they must play three of the board cards. A player with J 2 9 10 can use their J-9 to play the full house J J J 9 9 (or 9 ). Likewise, a player with 10 5 5

2 can use their 5-5 to play the full house J J 5 5 5 .

, a player with a

hand of cannot play a full house; the player can only use the to play , since they must play three of the board cards. A player with use their to play the full house (or ). Likewise, a player with use their to play the full house . Likewise, with three of a kind on the board, a player must have a pair in hand to make a full house. For example, with a board of J J A J K , a player with A 2 3 K does not have a full house, the player only has three jacks with an ace-king kicker, and will lose to a player with only a pair of deuces. This is probably the most frequently misread hand in Omaha. (Naturally, a person with the fourth jack in hand can make four jacks because any other card in hand can act as the fifth card, or "kicker".)

Omaha hi-low split-8 or better [ edit ]

A showdown in Omaha hi-low split. Player on the left wins the low-hand half with the nut low A-2-3-4-5, player on the right wins the high-hand half with a full house 5-5-5-J-J

The most valuable starting hand in Omaha hi-low split  
In Omaha

hi-low split-8 or better (simply Omaha/8), each player makes a separate five-card high hand and five-card ace-to-five low hand (eight-high or lower to qualify), and the pot is split between the high and low (which may be the same player). To qualify for low, a player must be able to play an 8-7-6-5-4 or lower (this is why it is called "eight or better"). A few casinos play with a 9-low qualifier instead, but this is rare. Each player can play any two of their four hole cards to make their high hand, and any two of their four hole cards to make their low hand. If there is no qualifying low hand, the high hand wins (scoops) the whole pot. This game is usually played in the fixed limit version, although pot limit Omaha/8 is becoming more popular. A few low-stakes online tournaments feature no limit Omaha/8.

The brief explanation above belies the complexity of the game, so a number of examples will be useful here to clarify it. The table below shows a five-card board of community cards at the end of play, and then lists for each player the initial private four-card hand dealt to him or her, and the best five-card high hand and low hand each player can play on showdown:

Board: 2 5  
10 7 8  
Player Hand High Low  
Alan A 4 5 K 5 5 A 10 8 7 5 4  
2 A Bryan A 3 10 10 10 10 8 7 7 5 3 2 A Chris 7 9  
J Q J 10 9 8 7 Cannot qualify  
Derek 4 6 K K 8 7 6 5 4  
7 6 5 4 2 Eve A 3 6 9 10 9 8 7 6 7 5 3 2 A

In the deal above, Chris wins the high-hand half of the pot with their J-high straight, and Bryan and Eve split the low half (getting a quarter of the pot each) with 7-5-3-2-A.

Some specific things to notice about Omaha/8 hands are:  
In order for anyone

to qualify low, there must be at least three cards of differing ranks 8 or below on the board. For example, a board of K-8-J-7-5 makes low possible (the best low hand would be A-2 , followed by A-3 , 2-3 , etc.) A board of K-8-J-8-5 , however, cannot make any qualifying low (the best low hand possible would be J-8-5-2-A , which does not qualify). Statistically, around 60% of the time a low hand is possible.

to qualify low,  
there must be at least three cards of differing ranks or below on the board. For example, a board of makes low possible (the best low hand would be , followed by , , etc.) A board of , however, cannot make any qualifying low (the best low hand possible would be , which does not qualify). Statistically, around 60% of the time a low hand is possible. Low hands often tie, and high straights occasionally tie as well, as do, even

more rarely, full houses. In theory, it is possible to win as little as a 14th of a pot (though this is extraordinarily rare). Winning a quarter of the pot is quite common, and is called "getting quartered." One dangerous aspect of playing for the low pot is the concept of "counterfeiting". To illustrate, if a player has, for example, 2-3 and two other cards in their hand and the flop is A-6-7, that player has flopped the "nut low". However, if either a 2 or a 3 hit the board on the turn or the river, the hand is "counterfeited" and the nut low hand is lost (the player still has a much weaker low hand however, with 3-4, 3-5 and 4-5 making better lows). This is why there is significant extra value in possessing the "protected" nut low. To illustrate this, if the player has 2-3-4 in their hand their low is protected, i.e. if a 2 or 3 hits the board they still have the lowest possible hand. To lose the nut low in this case either a 2 and a 3, a 2 and a 4, or a 3 and a 4 would have to hit the board on the turn and the river (giving the nut low to a player holding 4-5, 3-5 and 2-5, respectively), an unlikely possibility. For similar reasons it is significantly better to possess the protected nut low draw over the low draw. For example, this could be having A-2-3 with a flop of 7-8-9; any low card below 7 on the turn or river gives the player the best low.

and two other cards in their hand and the flop is , that player has flopped the "nut low". However, if either a or a hit the board on the turn or the river, the hand is "counterfeited" and the nut low hand is lost (the player still has a much weaker low hand however, with , and making better lows). This is why there is significant extra value in possessing the "protected" nut low. To illustrate this, if the player has in their hand their low is protected, i.e. if a or hits the board they still have the lowest possible hand. To lose the nut low in this case either a and a, a and a, or a and a would have to hit the board on the turn and the river (giving the nut low to a player holding , and , respectively), an unlikely possibility. For similar reasons it is significantly better to possess the protected nut low draw over the low draw. For example, this could be having with a flop of ; any low card below on the turn or river gives the player the best low. When four or five low cards appear on the board, it can become very difficult to read the low hands properly. For example, with a board of 2 6 A 5 8, the hand 2 4 5 K is playing a 6-5-4-2-A (either their 2-4 with the board's A-5-6, or their 4-5 with the board's A-2-6 --either way makes the same hand). In this situation he is often said to be playing their "live" 4, that is, their 4, plus some other low card that matches the board but still makes a low because the one on the board isn't needed. A player with 3 5 10 J is playing a "live" 3, for a low of 6-5-3-2-A, which makes a better low. However, a player with 3 7 Q Q can only play 7-5-3-2-A low; even though he has a "live" 3, he must play two low cards from their hand, and so he must play their 7-3, and cannot make a 6-high low hand.

, the hand is playing a (either their with the board's, or their with the board's --either way makes the same hand). In this situation he is often said to be playing their "live", that is, their, plus some other low card that matches the board but still makes a low because the one on the board isn't needed. A player with is playing a "live", for a low of, which makes a better low. However, a player with can only play low; even though he has a "live", he must play two low cards from their hand, and so he must play their, and cannot make a -high low hand. Starting hands with three or four cards of one rank are very bad. In fact, the worst possible hand in the game is 2 2 2 2. Since the only possible combination of two cards from this hand is 2-2, it is impossible to make low. As no deuce remains to appear on the board, it will be impossible to make three deuces or deuces full, and anyone with any matching card to the board will make a higher pair. Likewise, starting with four cards of one suit makes it less likely that you will be able to make a flush. Starting with four different suits yields no chance for a flush, and starting with four disconnected cards

reduces straight possibilities. Computer analysis of the best starting hands has proven that the best starting hand for Omaha is A-A-K-K (double suited). One favorite starting hand for Omaha is A-A-J-10 (double suited), because of its wider range for making the nut straight (J-7, Q-8, K-9, and A-10). For the Hi-Lo variation, the most valuable starting holding is A-A-2-3 (double suited). [5]

bad. In fact, the worst possible hand

in the game is . Since the only possible combination of two cards from this hand is , it is impossible to make low. As no deuce remains to appear on the board, it will be impossible to make three deuces or deuces full, and anyone with any matching card to the board will make a higher pair. Likewise, starting with four cards of one suit makes it likely that you will be able to make a flush. Starting with four different suits yields no chance for a flush, and starting with four disconnected cards reduces straight possibilities. Computer analysis of the best starting hands has proven that the best starting hand for Omaha is (double suited). One favorite starting hand for Omaha is (double suited), because of its wider range for making the nut straight (J-7, Q-8, K-9, and A-10). For the Hi-Lo variation, the most valuable starting holding is (double suited). Hands to avoid tend to contain mainly middle-ranked cards, which are of little use for any low splits and which tend to generate lower pairs and sets, weaker flushes and lower straights and can be very expensive. Four of a kind is the worst possible starting hand in Omaha, in contrast to most other poker games, where it is exceptionally strong. [6]

Straights and flushes are ignored when judging low hands.

Low hand ranks from best to worst: 5-4-3-2-A (the wheel), 6-4-3-2-A, 6-5-3-2-A, 6-5-4-2-A, ..., 8-7-6-5-4. Low hands can thus be read as numbers between 54,321 and 87,654 (with the exception of any number that has a pair, i.e. 54,322). The lowest number that any player can make, while ordered from high card to low, is the best possible low hand in play. For example: 2 3 5 6 7 wins over A 2 3 4 8[7]

Pot-limit Omaha [ edit ]

The worst starting hand in Omaha

Pot-limit Omaha

(frequently shortened to PLO) is popular in Europe, online, and in high-stakes "mixed games" played in some American casinos. This variant is more often played high only, but can also be played high-low. To a still greater degree than in Limit Omaha Hi-Lo, PLO is a game of drawing, when drawing, to the nut hand.[8] Second best flushes and straights can be, and frequently become, losing hands, especially when a player is willing to commit their entire stack to the pot. Furthermore, because of the exponential growth of the pot size in pot-limit play, seeing one of these hands to the end can be very expensive and carry immense reverse implied odds.

Wraps [ edit ]

In poker, an out is any unseen card in the deck that will give a player the best hand. A wrap is a straight draw with nine or more outs.[9] This is called a wrap because the player's hole cards are said to wrap-around the board cards. In Texas hold 'em, where players have two hole cards, the greatest number of straight outs possible is eight; however, in Omaha, there are four hole cards, which can result in straight draws which can have up to 20 outs. An example of a twenty-out wrap is J 10 7 6 on a flop of 9 8 2. To hit a straight, any of the following cards is needed: 5 5 5 5 6 6 6 7 7 7 10 10 10 J J J Q Q Q Q.

Redraws [ edit ]

A desirable hand to have in

PLO is the current best hand with a redraw. For example, if the board is Q J 10, and the player has A K Q Q, then not only do they have the current best hand possible

(their ace-king makes the ace-high straight), but they also have a redraw with the two queens in their hand because if the board pairs, they will make a full house, or four queens. A K Q Q would be an even better hand because it has flush and royal flush redraws as well. In fact, with the Q J 10 board, A K Q Q is approximately an 80-20 money favorite over a random hand containing ace-king (see freerolling). Even a pair of queens with any two spades is better than 55-45 against a random ace-king hand.

Omaha Variations [ edit ]

The most common variations of Pot Limit Omaha high are Five-card Omaha, commonly referred as "Big O" very popular in Southeastern United States as a home game and Six-card Omaha or 6-O which can be found in many casinos across the UK. Some online poker rooms support Five-card Omaha, Six-card Omaha and Courchevel.

"Big O" (occasionally called Five-card Omaha or 5-O) began appearing in Southern California in 2008 and had spread to most of the card rooms in the area by the end of the year.[citation needed]

Sometimes the high-low split game is played with a 9 or a 7-high qualifier instead of 8-high. It can also be played with five cards dealt to each player instead of four. In that case, the same rules for making a hand apply: exactly two from the player's hand, and exactly three from the board.

Courchevel [ edit

]

Courchevel is named after the high-end ski resort in the French Alps. According to the urban legend, bored tourists wanted to play a version of poker no-one has ever played before, so they came up with this game. The place where Courchevel was most commonly played was the Aviation Club de France in Paris. That casino is now closed.[10]

In the game of Courchevel,[11] players are dealt five hole cards rather than four. Simultaneously, the first community card is dealt. Following an opening round of betting, two additional community cards are dealt, creating a 3-card flop, where the structure of the game is then identical to standard Omaha. Still, exactly two of the five hole cards must be used. Courchevel is popular in France but its popularity has expanded in other parts of Europe, particularly the United Kingdom. Courchevel is also available in a hi-low 8 or better variety, and while Courchevel is rarely offered on any of the major online poker sites, as of 2024, hi-low sit-and-go games at the micro stakes level can be found taking place several times a day on Pokerstars, which had the game since 2013.[12]

## rei do blackjack :pixbet betvip

# Título principal: La temporada de Aston Villa en la Champions League

**Predicción de los escritores 4 de Guardian:** 6º puesto (NOTA: no necesariamente la predicción de Ben Fisher, sino 4 la media de las predicciones de nuestros escritores)

**Posición de la temporada pasada:** 4 4º puesto

## Perspectivas

En el momento en que parecía 4 que Unai Emery estaba desacelerando, arrugó el ceño una vez más y entregó un emotivo discurso de despedida. "Quiero disfrutar 4 más y más", dijo en el escenario del elegante banquete de fin de temporada de Aston Villa en mayo, minutos 4 después de confirmar su lugar en la Champions League. "Ahora comienza un nuevo desafío para nosotros, construir de nuevo un 4 equipo, ser fuertes, siempre aumentar nuestro nivel". Luego, como una especie de drop de micrófono, levantó el puño izquierdo en 4 celebración del lugar de Villa en la competición de fútbol europeo más prestigiosa en 41 años. "¡Arriba el Villa, arriba 4 el Villa!", gritó.

Ese momento, compartido con aficionados, personal y jugadores en un salón del 4 Holte End, brindó una instantánea de la mente de un entrenador obsesionado, absorto en su trabajo incluso en una noche 4 de celebración. También explica por qué Villa no tiene deseo de descansar en sus laureles, apoyado en su agresiva pero 4 estratégica aproximación al mercado de transferencias, incorporando ocho jugadores y moviendo ocho, en parte debido a las reglas de rentabilidad 4 y sostenibilidad. Emery no firmó una extensión de contrato de cinco años hasta 2029 para navegar a la deriva. 4

Han pasado solo cuatro años desde que firmaron a Mbwana Samatta y Borja Bastón, desesperados por 4 goles frente a la amenaza del descenso a la Championship, pero habiendo evitado esa crisis existencial, ahora pescan en un 4 estanque diferente, compitiendo por la crema y nata de Europa. La temporada pasada estuvieron cerca de atraer al extremo español 4 Nico Williams y este verano Emery apuntó a João Félix, después de completar los traspasos de Amadou Onana e Ian 4 Maatsen por un combinado de £88m, y firmar a los jóvenes prometedores de Juventus Enzo Barrenechea y Samuel Iling-Junior. 4

La clara preocupación es cómo se las arreglarán con al menos ocho partidos de alto voltaje 4 que se agregarán al calendario. Emery, que ha transformado a Villa en una fuerza dinámica, seguramente disfrutará el desafío. Después 4 de llegar a las semifinales de la Europa Conference League la temporada pasada, también tiene los ojos puestos en ganar 4 un trofeo. "Por supuesto, ahora [el objetivo es] ganar la Champions League, como lo hizo Aston Villa en 1982", dijo 4 entre grandes aplausos en la noche en que se confirmó su lugar de regreso a la élite. "Sí, pero si 4 estamos allí será más fácil que si no lo estamos", sonrió. "Lo más importante es: tener sueños".

## El entrenador

4 Exigente. Es la palabra clave de Emery y lo que pide a sus jugadores, se lo hace 4 a sí mismo, con el entrenador de 52 años conocido por ver clips del ``python oponente mientras está en la cinta de 4 correr en la base de entrenamiento de Bodymoor Heath de Villa. Un cuatro veces ganador de la Europa League - 4 el progreso de Villa ha sido tan rápido que han omitido esa competición - Emery parece enamorado del prestigio de 4 jugar en Europa. Hubo entusiasmo en su voz cuando discutió su primera visita al Johan Cruyff Arena, tomando {img}gráficas el 4 día

antes de que Villa se enfrentara a Ajax la temporada pasada, y luego está el meticuloso trabajo de campo, 4 estudiando tendencias y analizando a todos, desde el FC Andorra hasta el Barnsley. No es de extrañar, entonces, que después 4 de los partidos a menudo se permita "enfriarse" antes de hablar con los medios.

## Estrella emergente

4 Técnicamente, Jaden Philogene es una nueva firma de £13m, pero todo el mundo en Villa está bien versado en sus 4 habilidades, incluso aunque solo ha hecho tres breves apariciones para el club en cuatro temporadas. El extremo, que anotó dos 4 goles en su debut con la selección sub-21 de Inglaterra el año pasado y fue sobresaliente en la Championship para 4 Hull la temporada pasada, anotando un memorable rabona contra Rotherham, está de regreso en entornos familiares después de su estadía 4 en el este de Yorkshire. Philogene llegó a Villa en 2024 desde la Pro:Direct Academy en el norte de Londres, 4 pero fue permitido partir el verano pasado a pesar de impresionar en la pretemporada, con la condición de que cualquier 4 venta incluyera una cláusula de recompra. Ante el interés de rivales de la división, Emery tuvo conversaciones cara a cara 4 con Philogene para convencerlo de que esta vez tendría una plataforma para brillar. "Quiero hacer lo mismo que hice en 4 Hull, aquí en Villa Park", dijo.

## Cuadro general fuera del campo

"Shaaarron, ¿has visto mis Preds?" La línea candidata 4 a la frase del año provino de Ozzy Osbourne en el video de lanzamiento de la camiseta local de Villa. 4 Después de las quejas de los jugadores la temporada pasada sobre los uniformes, Villa acordó un trato con Adidas para 4 asegurarse de que se vean bien en su regreso a la Champions League, ayudados por el copropietario, Nassef Sawiris, quien 4 posee alrededor del 7% de la corporación alemana. "Creemos que debemos ser juzgados por la compañía que mantenemos", dijo el 4 presidente de negocios de Villa, Chris Heck, quien a veces trabaja desde la oficina central de Londres del club y 4 dice que el plan es aumentar los ingresos en £400m para 2027. En términos de las fastidiosas regulaciones de rentabilidad 4 y sostenibilidad, la venta de un activo clave fue una necesidad, con la salida de Douglas Luiz rumbo a Juventus. 4

## Estrella

Han pasado dos años desde que Ollie Watkins describió su deseo de ser visto como 4 un "asesino" frente a la portería, citando a Harry Kane. Después de 19 goles en la máxima categoría la temporada 4 pasada y superando a Kane en Alemania, es misión cumplida. Watkins, quien comenzó su carrera en Exeter City, desde donde 4 fue enviado a préstamo al Weston-super-Mare de sexta división, se ha transformado en algo así como una superestrella elegante en 4 Villa. Ha anotado 70 goles en 169 apariciones en todas las competiciones. Watkins es rápido, de fuerza sorprendente, un rematador 4 clínico y una amenaza aérea, pero quizás su atributo menos apreciado sea su casi constante disponibilidad. Watkins ha ```
